PROFESSIONAL EXPERIENCE

Crest Data Systems 11/2020 – present

Software Engineer

- **Admin Mobile Application**
  - Designed the backend architecture and led a team of 4 in building an Admin Mobile Application with LDAP-based authentication using FastAPI and Postgres.
  - This resulted in increased efficiency and improved tracking of issues for the admin team of the organization.
- **Jira Tickets Ingestion**
  - Developed a mechanism in Flask to fetch Jira tickets and store them in MySQL using multithreading and scoped session in Python for improving the data fetching accuracy and performance enhancements.
  - Optimized ticket fetching performance resulting in a 50% reduction in processing time.
- **Comparative Analysis Tool**
  - Built a state-of-the-art Comparative Analysis Tool using FastAPI, MongoDB, and ReactJS to enable feature comparison of various product categories.
  - Enhanced insights into product sales through the integration of product analytics functionality, resulting in a better management experience and optimized sales.
- **Ingest Portal**
  - Collaborated with the development team to design backend architecture for an ingest portal, meeting the customer's requirements and ensuring high performance.
- **Splunk Test Infrastructure**
  - Assisted Splunk's testing team in managing their test infrastructure and ensuring bug-free operations, contributing to the successful delivery of high-quality software products.

Indian Army - Center of Excellence, MCTE 04/2020 – 07/2020

SWE Intern

- Built real-time human activity surveillance system that improved tracking capabilities to stop intruders at the LOC.

PROJECTS

Research Web Portal

- Developed a single point securely hosted solution to seamlessly integrate search and manage all the research activities

CHARUSAT Resultica

- Built a web App on Data Analytics on Students' result data which gives insight of results of the students such as class rank, university rank, and analytics of students' performance in each subject which helps them to evaluate their performance

EDUCATION

B.Tech in Computer Science and Engineering 2017 – 2021 | Anand, India

Charotar University of Science and Technology

CGPA - 9.5/10

SKILLS

Python | FastAPI | Pydantic | PostgreSQL | PyTest | Flask | JavaScript | ReactJS | MySQL | Git | Docker

AWS Cognito | Microservices | Jira

ACHIEVEMENTS & POSITIONS OF RESPONSIBILITY

Studied under TFWS (Tuition Fee Waiver Scholarship) 2017 – 2021

Govt. of Gujarat awarded scholarship on the basis of Higher Secondary Boards' percentile rank

Winner : Smart India Hackathon 2020 | Hyderabad, India

Secured 1st rank in National Level Hackathon which consisted about 60 teams.

Winner : Intra-University Hackathon 2020

Secured first position among almost 60 teams in Internal Hackathon for Smart India Hackathon

CORE-COMMITTEE - UNIVERSITY CODING CLUB

Conducted internal competitive coding contests with codechef platform which included 500+ students
